The Home Builder Certificate program allows learners to gain residential construction industry-ready skills to build homes in a timely, simple and cost-effective manner using common building practices. Educators, partners and industry stakeholders give the opportunity to not only build a home, but ultimately gain exposure to the many trades and career paths associated with the residential construction industry in the home building process. The program provides hands-on exposure to home building plus theory, skills and safety training needed to work in the residential construction field.

Admission Requirements: Completed Grade 10 with Math, Science and English | Or Mature Student (assessment required)
