

The University College of the North (UCN), in partnership with Safety Services Manitoba (SSM), is pleased to offer the following

# Safety Courses

## Train Remotely – Attend **VIRTUAL** Classes with a Live Instructor

Registered students will take this training from their home or workspace. Students will not be attending at one of our UCN campuses or Centres. Prior to class start, handouts and meeting login information will be emailed to registered students by the facilitator or instructor. Students must have a laptop, tablet or smart phone with reliable internet capable of connecting to remote Zoom with use of microphone and video.

**Date:** Classes will be held over Zoom. Students are asked to login ½ hour prior to class start.

**Course Cost:** listed on the table plus 5% GST payable to UCN upon registration.

Course descriptions can be found on next page. Students needing help with Zoom log in please contact Lindsay Cook to schedule a practice login to Zoom once registered.

**To register or for further information**  
**Contact Lindsay Cook at 204-734-4419 or lcook@ucn.ca**

The fee must accompany the registration form in order for your seat to be held. Pay by cash, check, Purchase Order, ATI, TAN, MasterCard/Visa. Courses are subject to cancellation due to insufficient enrolment. Refund Policy: 100% refund will be issued if course is cancelled by UCN. If student wishes to withdraw, a refund will be issued providing the original receipt and voluntary withdrawal form are submitted to UCN 5 business days prior to first day of class.

Further information and course offerings can be found at [ucn.ca/cis](http://ucn.ca/cis)

## **Course Descriptions**

### **Inspecting your Workplace**

This course focuses on the importance of formal and informal inspection techniques and the need to identify the hazards within the workplace. Once the hazards are identified, the student will be taught proper ways to eliminate or control the hazard through corrective actions and recommendations.

### **Fall Protection**

This course teaches participants how to exercise the hierarchy of controls including fall prevention, fall restraint, and fall arrest as each situation will be different when working at heights. Students will learn how to inspect fall protection equipment, how to don a harness.

### **TDG Ground**

This course provides the necessary tools to ensure all drivers, shippers, and receivers learn appropriate handling and ensure legal responsibilities are understood and fulfilled. This course will also teach participants the appropriate response techniques in emergency situations such as spills or accidents.

### **Forklift Refresher**

This course includes a written and practical skill assessment to validate training competencies. Participants will receive a certificate upon successful completion of this course. Learning outcomes include Forklift Hazards, Standards, Regulations & Responsibilities, Forklift Design and Classifications, Stability, Pre-Operational Checks, Safe Operating Procedures & Fuel Sources.

### **Aerial Work Platform Refresher**

This course includes aerial work platform (AWP) design types, operator qualifications & responsibilities, safe operating procedures, AWP components, battery charging & refueling, pre-operational inspections & fall protection basics.

### **Confined Space Refresher**

The course will address the hazards associated with confined spaces and it will outline the duties and responsibilities of all members of a confined space entry team, emergency rescue procedures, and plan development.
