

ALUMNI

In Focus

Current Job:

Director,
The Pas Preschool,
The Pas, Manitoba

What her job entails:

I am responsible for daily operations which involves program planning, including implementing and planning daily activities, staff hiring and training and providing care for young children. Working alongside the Board of trustees, we receive feedback and support from local community members and families to provide a safe and nurturing environment for preschool children and provide support for families within the community.

Future Plans:

Future goals include returning to UCN to acquire an ECE Level 3 certificate and broaden my knowledge within the ECE profession. With this knowledge, the goal is eventually to start my own pre school aged daycare.

How did your UCN Program help you achieve and advance your career goals to-date?

The ECE 2 program at UCN provided me with the knowledge and skills required to excel in the early childhood education field, and significantly contributed towards helping me achieve my goal to become a successful early childhood educator.

What key competencies did you acquire?

As a result of the ECE 2 program, I have acquired a greater sense of understanding and patience for young children and their families.

I have implemented what I have learned from the program into my own everyday family life and this has enabled me to be a better parent to my own children.

Anything else you would like to share to encourage prospective students?

I recommend to anyone, young or old, who may be considering expanding their education and knowledge to advance in their careers or just to try something new, just do it! You never know what opportunities await, it's a very rewarding experience!
